

INTELLIGENCE COLLECTION REQUIREMENTS / PLAN

Context

Global Issue

National Issue

Priority warning issues

Threat Matrix Development

Information arising from these collection requirements will be fed into the agencies' threat assessment matrix. The attributes used in this assessment process include:

- Financial, social and economic impacts
- Enabling context for other threat activity
- Threat capability and intent

Collection methods

Discusses the various existing responsibilities for collection, collection arrangements and who may be best placed to collect.

Intelligence Requirement	Information Requirements	Specified Agency Responsibilities
